Dear Fellow-Citizens of NJ's 11th Congressional District:

My family has lived in Morris County for four generations and we're very proud to call this our home. I'm a businessman, former Navy Officer and, with my wife Joanna, father of two wonderful daughters.

I've spent the last 20 years of my career in the private sector solving problems and building successful businesses to enable computer chip function, help provide new energy sources, and fight cancer. As a reservist in the US Navy from 2003 – 2012, I did the same thing fighting the Global War on Terror.

Our nation faces great challenges today, the likes of which we haven't seen in decades. Yet lining up to fill the vacancy Rep. Rodney Frelinghuysen will leave with his retirement this December are *career Trenton politicians and political operatives.*

I have never run for office. But I've entered this race for New Jersey's 11th Congressional District because I believe our community deserves a leader who both understands this community and knows how to get things done. I will be a committed Representative, not just a Washington Congressman -- *that is what I pledge to you.*

This fall Democrat Congresswoman Nancy Pelosi, along with New Jersey's Democrat Senators Booker and the disgraced Menendez, have recruited one of their big-government, *tax hungry* friends into Congressman Frelinghuysen's seat and take control of the US House of Representatives.

We in New Jersey's 11th District — living in the towns and villages that once hosted General Washington's army —are being asked to respond to this challenge by the Democrats. The decisions we make here in the June 5th primary, and in the November general election, could, once again, be defining for the course of our nation.

I'm prepared to lead that fight against Nancy Pelosi and bring a fresh voice to Washington to reinvigorate the Congress with new ideas, and thoughtful proposals. I invite you to join our campaign.

I look forward to meeting you on the campaign trail.

Very truly yours,
Peter DeNeufville
