

March 5, 2019

Dear Chairman Earlen,

At a time when Republican values of fiscal responsibility, lower taxes and individual rights are under attack by the liberal tax and spend policies of Democratic majorities at the local, county and state levels, it's more important now than ever to show a united front as we move towards the 2019 election.

As municipal chairs, we know the importance of having a strong and trustworthy ticket from top to bottom. Our best opportunity to secure and win back seats of dedicated Republican candidates who will put the taxpayers of Burlington County first lies in our ability to move forward as a united team.

We appreciate the work of the 8th legislative district screening committee in interviewing and deliberating to find the very best slate to bring us victory in November. We believe they have found just that by recommending Assemblyman Ryan Peters and Sheriff Jean Stanfield to receive our endorsement for the 8th District Assembly seats.

The team of Peters and Stanfield will not only help us to keep these Assembly seats in the Republican column, but they will also work as a team to support the rest of our candidates at the county and municipal level. We look forward to supporting Stanfield and Peters at every step of the process from the convention, through the primary, and into the general election.
